SUMMARY

Digital Science and Technology graduate from Mahidol University. Built production React/Next.js applications during a 6-month internship at the Ministry of Public Health, and wrote Java automation suites with Appium at Celestica. Experience integrating a deep-learning model over REST APIs and applying AI tools in daily development work.

SKILLS

- **Languages:** JavaScript, TypeScript, Java, Python, Dart, SQL, HTML, CSS
- **Frameworks:** React, Next.js, Flutter, Tailwind CSS, Riverpod
- **Backend & Databases:** Node.js, REST APIs, Supabase, Firebase, MySQL
- **Testing:** Selenium, Appium, Katalon Studio
- **Tools:** Git, GitHub, Figma, Postman

WORK EXPERIENCE

Frontend Developer Intern at Ministry of Public Health

Jun 2025 - Nov 2025

- Built 22 production-ready screens from Figma designs in React, Next.js and Tailwind CSS.
- Owned a five-step asset registration wizard, plus borrowing, repair, inspection, disposal and reporting.
- Implemented search, filtering, pagination and modal CRUD forms with React state.

Test Automation Intern at Celestica

May 2024 - Jul 2024

- Wrote the test plan and designed functional test cases for an Android Bluetooth motor-control app.
- Automated the full suite in Java with Appium, running on Android emulators and physical devices.
- Reported each run through Extent Reports, giving the team a per-test pass/fail breakdown.

PROJECTS

Senior Project: THAI CATTLE PASSPORT APPLICATION

Sep 2025 - May 2026

- Built a cross-platform cattle management app using Flutter, Riverpod and Supabase, with Google Maps API for farm locations.
- Integrated a ConvNeXt-Tiny model over REST for cattle identification, averaging 94.6% accuracy and AUC > 0.94 across five folds (1,026 images, 43 cattle).
- Implemented QR-code links that gave users access to cattle health profiles through a public web interface, with in-app scanning.
- Built 25+ screens covering farm registration, cattle onboarding, health-activity logging, and an offer/ownership-transfer marketplace.

EDUCATION

Bachelor of Science in Digital Science and Technology

Graduated: Jun 2026

Faculty of Information and Communication Technology, Mahidol University

- **GPAX:** 2.70

LANGUAGES

Thai: Native | **English:** Intermediate (TOEIC 660, B1)
